

KAP Spanish IV 2017-2018
Señor Bright
Buckeye Valley High School
jbright@mybvls.org

COURSE DESCRIPTION

Spanish IV is a dual enrollment course and is taught in conjunction with Kenyon College. You will receive 0.5 KAP units (or 4 semester hours) for the successful completion of this course. The description of the course from Kenyon's website is:

“This course is designed to give advanced students the opportunity to refine and increase their abilities to write, read, and speak Spanish. The course will have a strong emphasis on oral proficiency. Cultural and literary readings, writing software, and selected Spanish-language films are among the materials on which class discussion and assignments may be centered. A grammar review, focused mainly on typical areas of difficulty, will be included.”

EXPECTATIONS

KAP Spanish IV is divided into four sections of study. Students are required to complete all readings and writing activities and assignments, to complete all speaking assignments and all partner and group projects and presentations and semester exam projects and papers. Students are also required to participate daily in oral activities and discussions. Each section of study will also include various writing assignments encompassing the literature or films used in class. A summative writing assignment will be assigned at the end of each quarter (one for each section of study) in order to practice researching and refining the individualized skills needed by each student.
